THE SCHOOL QUISTION .- The Democratic candidates for the Assembly have sent us the follow ing Card for publication : TO THE PUBLIC.

TO THE PUBLIC.

A CARD.—The undersigned, the candidates for the Assembly, nominated by the Democratic Republican party, who are now in town, (and we believe those who are absent will concur with them.) think proper to declare, in respect to the extraordinary statements that have been lately put forth concerning them, and to prevent misapprehension of their views upon the Public School Question, that they discount tenance altogether the scheme and the objects of the present Governor of this State, from whom, and his chief counsellors, they believe all the present diff. present Governor of this State, from Whom, and in-chief counsellors, they believe all the present diffi-culties have their origin; that they are utterly ep-posed to any appropriation of the School Fund for any sectarian purposes, directly or indirectly; and disclaiming all sectarian nominations, they present themselves to the People only as the candidates of the Democratic Republican Party. The above Card published in the last Even ing Post by ten of the Tammany candidates for embly struck the whole City with amazement It is a compound of cowardice, insult and treach ery: cowardice, in skulking the simple and only question on which their opinions were asked; in sult, in imputing to the advocates of a change in the Public School System motives and objects which they most strengousty disclaim; and coldblooded treachery, in smitting to the earth those who have been their ardent and uniform supporters, who had just nominated and intended to elect them again to the Legislature, and whose views and wishes on the School Question most of them cly or privately, professed to approve.

Six of these ten candidates were last winter Members of Assembly, and were necessarily familiar with the School Question in all its features. They know what Mr. Spencer's bill proposed, and most if not all of them professed to regard it with favor. We have been assured that the majority of the Delegation were ready to accept and put forth the bill as their own. And now the candidates are asked, "Will you sustain the School System as it " is, or will you support such an alteration as Mr "Spencer's bill contemplates?" The Whig can didates say frankly, " We are for the system as i is." The Tammany candidates, " to prevent misapprehension of their views on the Public School Question," declare-What? Can any man tell? They mean to lead the friends of the present system to believe that they are in favor of this system, by insulting and misrepresenting the views of its " Fund for secturian purposes, directly or indi. a ticket than FRANKLIN, BRADFORD and Cooker " rectly." Their appearance as supernumeraries on the Candidates' Card is gratuitously inulting.

BF The Sun, among three or four shan tral Editorials, intended to favor the Loco-Foco carry, has one on the State Prison Question, insinuating that the Mechanics are destined to be cheatd, whichever party succeeds. Now if it were rue that the mere politicians of both parties are is hollow as the Sun represents them, we think it s still indisputably true that THE MECHANICS CAN TRUST THEMSELVES. Is it not so, Mechanics. Can you or can you not trust Jo. TUCKER, E. G. BALDWIN, JOHN COGER, and their associates with he guardianship of your interests? Why should hey deceive you? How can they? Have they not for years been laboring in your cause? hey not your brethren and fellow-sufferers! They have not sought nominations for Assembly; the cominations sought them, and in some instancewere accepted with great reluctance. They leave heir business, if elected, at great inconvenience o go to Albany and procure the overthrow of the State Prison Monopoly. That done they will reern to their workshops, rejoicing that their sac ifice of personal interests has not been withou advantage to their friends and felloweraftsmen.

P Our friends in the Eighth Ward ask as to express their stern indignation at the conduct of the Loce-Foco Registry Commissioners of tha Ward in refusing to receive objections to eleven voters whose names are on the Registry of that Ward. Their pretence was that the objectioncame too late, aithough they had advertised to sit till 9 o'clock, P. M. of the day on which they were inded in at 8 o'clock. They not only refused t receive the objections, but claimed the right to carry them off; and, though Mr. Fountain, the Whig Inspector, put them in the Registry box (of which he keeps the key by agreement) in defiance of their attempts at paper snatching, they afterwards took them away by picking the lock and they are not new to be found! Such is the spirit, such the means by which Loco-Focoism fights its battles. Whigs of the Eighth! let you ust indignation only fire you to a more thorough discharge of your duty!
